IMMUNOTEC'S

**LARGEST BONUS
PAYOUT:
\$100,000!**

Platinum Consultant
DR. RICARDO GARCÍA PELAYO

When Mexico's recruiting superstar, Dr. Ricardo García Pelayo began working his Immunotec business last September, he believed that he "was at the right place at the right time." And over the next eight months, his concentrated, focused effort resulted in success at an unprecedented rate. Attaining the Platinum rank faster than anyone else, he stands poised to earn the largest Accelerated Moving Up Bonus paid out in the company's history, a breathtaking total of \$100,000 USD!

"I dedicate 100% of both my time and myself to my Immunotec business because I know that it's a great opportunity. I have big goals, which is why I focus on developing leaders within my team," he says.

consultant spotlight (CONTINUED ON NEXT PAGE)

A medical doctor with a background in nutrition and chronic degenerative disease, the integrity of Immunotec's products and opportunity immediately resonated with Dr. Garcia Pelayo. And as Immunotec shows the signs of exploding into its momentum phase of growth, he also plans to keep the momentum exploding in his organization. He is committed to developing impressive numbers of new Diamond, Gold and Silver Consultants on his team.

The good news for other Immunotec Consultants is that Dr. Garcia Pelayo's story is entirely duplicatable. He has built his business in a country with an emerging or developing economy. While Internet usage in the United States and Canada hovers at about 77%, in Mexico, only 27% of the population is online. And the average income can be as low as 25% of that of an American household.

Despite these challenges, Dr. García Pelayo credits three factors to the growth of his business and the success of his downline: a strong belief system, commitment and support.

With confidence in the network marketing industry and a solid conviction about the superiority of the products, Dr. García Pelayo confidently shares the Immunotec opportunity with everyone who is struggling with health and financial problems. For him, his Immunotec business is built on the very foundational values that his parents instilled in him: love for God and fellow man, respect, integrity, honesty, family and helping others.

While Dr. García Pelayo recognizes that an unwavering level of commitment to his business is important, he also understands that an equal level of devotion to his team is paramount. He believes that as the leader of his organization, it is his responsibility to train, motivate and guide his team members. He meets with his leaders throughout the month and makes communication an ongoing priority.

Finally, Dr. García Pelayo is grateful for the support he receives from his wife Elizabeth and their daughters, Elizabeth and Jacqueline. Their encouragement and inspiration are a blessing that he does not take for granted.

While Dr. García Pelayo has already exceeded even his own expectations for success with Immunotec, he has only begun to create his legacy. On a daily basis, he patterns leadership to his team, demonstrating a passionate drive to grow the business with integrity and proving that by helping others to succeed, his success is multiplied. ☑

"I dedicate 100% of both my time and myself to my Immunotec business because I know that it's a great opportunity. I have big goals, which is why I focus on developing leaders within my team."

The **FOR SALE** sign is **DOWN** and her **BUSINESS IS WAY UP**

Executive Diamond Consultant

ROSA OFELIA GARCÍA PELAYO

Rosa Ofelia García Pelayo is experiencing two powerful emotions after just ten months at Immunotec: a sense of achievement – thanks to her recent promotion to Executive Diamond – and a surge of excitement because she is on track to earn a trip for two to the Barceló Los Cabos Palace Deluxe.

Yes, Rosa Ofelia is on her way to celebrating her success in style!

Hard to believe that less than a year ago Rosa Ofelia was feeling overwhelmed by her circumstances. Deeply saddened by the recent death of her mother and in the midst of putting her house up for sale, Rosa Ofelia was in what she calls “the worst economic crisis of her life”. Her accelerated success has turned financial hardship into a distant memory.

Now earning more in a month than many people earn in a year*, Rosa Ofelia considers herself to be richly blessed. When she opened her last Immunotec check, Rosa Ofelia was overwhelmed with gratitude. “I knelt down

and gave thanks to God for the great miracle. I was filled with happiness and I knew there was something grand and wonderful ahead of me. And then, I went outside and took down the “FOR SALE” sign from my lawn!”

Immunotec’s arrival in Mexico was quickly recognized as an incredible opportunity for Rosa Ofelia and her upline leaders, including Dr. Ricardo García Pelayo. Rosa Ofelia’s organization is made up of men and women driven by an enormous desire to help others to achieve wellness in all areas of their lives. She says, “My team is responsible, enthusiastic, highly ethical and we consider Immunotec to be an answer to prayer, a treasure that has come into our lives.”

It is impossible to hide Rosa Ofelia’s enthusiasm for her business. “First of all, I believe that others see my conviction and that my body language shows MY PASSION for this amazing mission. Moreover, I show my potential team members a great opportunity to transform their lives as well as the lives of their families. I firmly believe that you reap what you sow. I have a lot of

respect for my fellow human beings. And for this reason I tell my story so that others can find inspiration to do something wonderful with their lives. One of my favorite quotes is: ‘The timing of God.....IS PERFECT!’” ☑

*Earnings represent Rosa Ofelia’s personal experience and may not be representative of all Consultants.

A man WITH A MISSION

Diamond Consultant
Dr. Ionel Dodos

New York-based Dr. Ionel Dodos can easily be called a *man with a mission*. He achieved the Diamond rank within three months of joining Immunotec, thanks to an inherent passion for helping people. Admittedly, Dr. Dodos' original interest in Immunotec was inspired by his search for a great health-promoting product for his patients, friends and family members.

"Before joining Immunotec, I looked into many companies. I wanted the best product. I have to say that throughout all of my research, I found a lot of products out there that claim to do a lot of good. But none of them even comes close to what Immunocal® does," says Dr. Dodos of his quest.

Although Dr. Dodos' underlying intent is to share Immunocal – "share the health" – he knew from the day he joined Immunotec in early 2011 that the only way to get Immunocal in as many homes as possible is to talk about the business opportunity.

Emails went out by the hundreds to his patients and colleagues. Follow-up calls, presentations and answers to potential team members' questions also play a role in Dr. Dodos' recruiting endeavours.

One of the most frequent questions asked by potential Consultants is, *"Does your Immunotec business warrant the time and effort that you put into it?"*

His answer easily supports his enthusiasm for his Immunotec business and demonstrates a lucrative revenue stream from the get-go.

*"The first check I received from Immunotec – only ten days after joining – was for \$497 USD. The second check made out to my name was for \$800 USD. The third check I received was in the month of March and it was for \$3,800 USD. My April check was over \$7,000 USD!"**

Within four months of joining Immunotec, Dr. Dodos had earned over \$13,000 USD!

But it's not all hard work! In September, he and his wife, Anita, will enjoy an unforgettable

vacation at the Barceló Los Cabos Palace Deluxe – thanks to his recruiting and leadership development efforts. He readily earned a trip for two to Mexico and by continuing to build points after he reached the required level for qualification, Dr. Dodos has earned additional rewards. His accommodations will be upgraded so that he and Anita can enjoy the pleasures of a deluxe swim-up suite.

Dr. Dodos' enthusiasm is not just about earning money and being recognized for his achievements. His growing Immunotec business allows him to give back. He and five members of his Immunotec team plan to build a hospital in Bonao, a city in central Dominican Republic.

The location for this future medical facility is a family-owned property of a colleague – one of the many people Dr. Dodos feels fortunate to have met through his many years of work as a medical missionary.

Dr. Dodos' desire to make a contribution reveals the true meaning of prosperity. It also demonstrates the powerful force that drives this "man on a mission"! 

*Earnings represent Dr. Dodos' personal experience and may not be representative of all Consultants.

WHO'S HOT Silver Consultant DANIEL MELARAGNI

Silver Consultant Daniel Melaragni was minding his own business, working in sales at an Apple® store in Montreal, Quebec when he had one of those encounters that can change your life.

Daniel took pride in providing exceptional customer service and on that particular day in May, the gentleman he served was especially grateful. A larger-than-life personality, the customer went to see the store manager to express his appreciation for the salesman's "above and beyond" brand of client care. "It's important to me that you let him know I was happy," he said. "When you email him with your congratulations, be sure to copy me", he concluded, handing over his business card. A few days later he received a thank-you note from the young salesman.

The happy Apple customer? Immunotec Executive Diamond Consultant and member of the Millionaires Club, Howdy Meghdadi, who quickly developed a relationship with his potential new business partner, Daniel. "I invited him to a business opportunity meeting. I showed him my picture in a Montreal magazine and I asked him to

be my guest at this year's Taste of the Caribbean event in Montreal where I was the Honorary President. I invited him to my home office; we discussed the business and its potential. And then I asked him for some more names!" A few days later, Daniel and six of his friends were seated around a conference table where they all signed on as Immunotec Consultants.

Howdy told each of his new recruits that he would be there for them. He would support them and show them how to earn the same success that he enjoys. They could call him at any time with questions. "I gave each one of them my business card with my cell number. And then I told them what I expected of them. Either you recruit two new Consultants in the next week or throw my number away! I am interested in building fast ... and unless my team is committed to doing the same, I can't afford to invest my time in you."

Daniel was obviously interested in getting started fast! Within a week, he had recruited four Venture Consultants into his organization. The next week he added more.

"This is a very exciting time and opportunity and I intend to make the most of it"

Daniel Melaragi, Howdy Meghdadi and team members at a recent business presentation in Montreal.

"This is a very exciting time and opportunity and I intend to make the most of it," says Daniel. "It is evolving much faster than I expected. I am passionate to talk to anyone about our product, what it does, and how anyone can benefit from it. I am grateful to have support from both an accomplished Consultant and the seasoned corporate leadership team at Immunotec. When interested prospects do their due diligence – the facts tell the story. I'm here to provide them with a solid business opportunity and help change lives in the process."

Daniel and his 70 million Generation Y peers are ideal network marketers. They want flexibility in their jobs; put a high value on self-fulfillment, and want to be able to

work part-time when children eventually arrive. Thirty-seven percent of Gen-Yers expect to start saving for retirement before 25. They are tech savvy and know how to develop online businesses. And the "work in your sweats" dress code of a home-based business suits them to a T; they prefer flip-flops to brogues and Nikes to loafers.

Howdy is thrilled to be re-engaged in his Immunotec business, mentoring young people like Daniel Melaragni. With no limits to what he can achieve at Immunotec, this ambitious young entrepreneur is someone to keep your eye on. 

This testimonial reflects the actual experience of the individual; your experience may vary.

LOOK AT THE SIMPLE STEPS HOWDY TOOK AND PUT THEM INTO ACTION IN YOUR BUSINESS:

1. *He talked to a salesperson in a store. **Talk to people.***
2. *He developed a relationship of mutual respect. **Look for opportunities to connect with people and earn their ear.***
3. *He invited his new friend to a business opportunity meeting. **Invite, Invite, Invite!***
4. *He asked for referrals. **Find out who your contacts know.***
5. *He shared the earning opportunity and the products. **Discover their needs and show the benefits.***
6. *He required a commitment to get started fast. **Help your new recruits get into action immediately.***

WORD FROM THE PRESIDENT

Now is a GREAT TIME for seizing the IMMUNOTEC OPPORTUNITY

I am very excited about my position here at Immunotec and am delighted to share with you the hope and promise that I see here each and every day.

I am grateful for the opportunities that I've had through the years to be involved with organizations that went into momentum and saw explosive growth. These experiences have had a profound effect on me. In particular, they have given me the ability to recognize the key elements required to propel a company through the stratosphere. Immunotec has those elements.

With an outstanding product, the right people and one of the highest percentage payouts to its Consultants in the industry, Immunotec is on the threshold of solid and substantial growth - growth that will multiply with unstoppable momentum.

It's an exciting time for Immunotec and more importantly, it's an exciting time to be a part of the opportunity that is Immunotec. Together, we all have the opportunity to take advantage of this stable 15 year-old start-up!

Your business is built on 30 years of scientific research and 15 years as a financially sound network marketing company. This solid foundation is your catapult into a market that consists of hundreds of millions of people around the world. People who have been affected by our turbulent economic times and are receptive to a proven opportunity to enhance their quality of life through both sustained health and a stable monthly revenue stream.

To build on Immunotec's established base, the company continues to develop the tools that you need to facilitate the process of growing your business. In our industry, sharing (the product and the opportunity) is about recruiting.

As you continue to grow your business and ultimately share the experience that is Immunotec – the health benefits, the vitality, the lifestyle – you inspire a constant motive for celebration. Hence your quarterly electronic magazine's new name: **CELEBRATION!**

As mentioned, Immunotec has the essential elements for your success. The three *P*'s: product, people and pay plan. All that's missing on an individual basis is the fourth *P* – your passion for sharing this opportunity with others. The tools, the resources, the credibility and the support are all there for you to take your business and income to higher levels than ever before. With all the elements in place, it is with both pride and confidence that we put the ball of opportunity in your court.

As President of Immunotec, I look forward to crossing the threshold into explosive growth with you!

Be well,

Stuart MacMillan
President, Immunotec
